## Meeting Notes

**January 20, 2022**

Via Teams  
10:00 a.m. – 11:30 a.m.

*To view the meeting recording via YouTube, please visit [here](#).*

### Opening Remarks & Introductions (Michael)

Dr. Michael “Mike” Manser started the meeting and welcomed and thanked everyone for taking the time to join the Texas Motorcycle Safety Coalition meeting today.

### How to use MS Teams (Michael)

Mike then went over how to use MS Teams for our meeting since previous virtual meetings had been hosted via WebEx.

### Crash Data Overview 2015-2020 (Cathy)

Cathy Brooks presented an overview of crash data from 2020. Below are the 2020 statistics shared. Also found in the presentation from the meeting are injury data from 2015 – 2020.

- 12% (482) of the traffic **fatalities** were **motorcycle riders**
- 29% (2,339) of the motorcyclist involved in a crash suffered a **fatality or suspected serious injury**
- 1% (6,699) of the occupants of a 2 or 4 door passenger vehicle suffered a **fatality or suspected serious injury**
- 31% (151) of the motorcyclist **fatalities** were an **impaired rider**
- The **average** BAC for the **fatal impaired motorcycle operators**, with a BAC greater than zero, was **0.16**.
- 22% (520) of the **suspected serious injury or fatal** motorcycle injuries were speeding related
- 32% (156) of rider **fatalities** were related to speeding
- 50% (241) of rider fatalities were involved in a **single vehicle crash**
- 51% (123) of the single vehicle motorcycle rider fatalities occurred in a **rural area**
- 31% (149) of the motorcycle rider fatalities were at **intersections**
- 66% (98) of the intersection related motorcycle rider fatalities occurred in **urban areas**

Mike indicated if there are any requests for data that we can look into something a little deeper and report back to this group. Please do let us know.

You can either email us at [c-brooks@tti.tamu.edu](mailto:c-brooks@tti.tamu.edu) or [m-manser@tti.tamu.edu](mailto:m-manser@tti.tamu.edu).

## TDLR Report (Michael “Ford” Strawn)

Mike introduced Michael “Ford” Strawn with Texas Department of Licensing and Regulation. Ford is the senior manager for the Education Examination Division and was there to give an update.

- TDLR will have a new executive director, starting February 1st. Brian Francis is retiring and Michael Arismendez is now taking over. Michael is very focused on TDLR being more efficient and serving Texans the best that we can. He's going to come in with some renewed vigor and we're excited to see what that change brings to us.
- TDLR has a new emailing system that is a web contact form with dropdown menus to enter information, and you can provide any attachments. This format will provide data and analytics on your questions and requested topics to help TDLR improve the website. Anticipated improvements include online license renewals, checks, and reprinting.
- The range approval process has been streamlined in response to feedback from instructors, to reduce the number of steps and the total wait time. Under the new process, instructors complete a range approval request with the curriculum provider, and the completed request is then sent to TDLR for a final review.
- TDLR motorcycle course audits have changed to reflect the updated laws regarding training. Details regarding the updated audit process are provided in a document on the TDLR website. Audits are also an opportunity for you to ask questions and learn about the resources available to you on the website. A survey will soon be sent out to people who have recently completed an audit, to obtain your feedback for the purpose of improving that process further.
- Please sign up for TDLR's listserv to make sure that you all are aware of updates and changes, including some recent clarifications to the rules.
- TDLR has been talks with TEEX Texas Engineering Extension Service about their recommitment to providing instructor training classes. An agreement is in process and TDLR hopes to announce instruction preparation classes on the listserv and website soon.
- Dr. Manser and his team at TTI have been working on a project for TDLR about Instructor recruitment and retention. Information from the results of that project should be coming to you all soon.

## Forum Topics and Speakers (Cathy / Mike)

2022 Motorcycle Safety Forum Planning. We are planning to have the forum live with an option to record as well as Virtual components.

Save the date: Forum will be held on April 9, 2022 – YO Ranch, Kerrville, TX.

This is a tentative schedule and ideas that we have put together based on the input from everybody who registered for last year's forum. Please give us feedback on topics and suggest potential speakers/panel members. Contact Cathy at [c-brooks@tti.tamu.edu](mailto:c-brooks@tti.tamu.edu).

### Motorcycle Strategic Action Plan Review (Mike)

Mike Manser provided background on the Texas Motorcycle Strategic Action Plan and how that is developed. This document is spearheaded by TTI but developed with input from our motorcycle community in Texas and feeds into the five-year motorcycle safety plan. It's a guide that everyone can look to and can be used as a resource to better understand what our safety issues and where efforts should go to improve motorcycle safety in Texas. We're at the beginning of putting together the Strategic Action Plan for 2022 and five years beyond that with the safety plan. This is just the very first opportunity to get involved and provide thoughts, input, volunteer, etc. There will be more opportunities as the year progresses and at the next TMSC meeting. Further details can be found in the meeting PowerPoint and recording.

### TMSC & Task Force Chair Nominations (Mike)

Texas Motorcycle Safety Coalition nominations for the TMSC Chair and Task Force Chair are open.

#### TMSC Chair Nomination

As part of the TMSC bylaws, it's time to nominate a new TMSC chairperson. We want to thank Chris Beireis, who has served in that role since 2014, for his awesome job and effort that he's put in. This is a call for nominations that will be collected by the TMSC meeting April 8<sup>th</sup> and more formally acknowledged at the Forum April 9<sup>th</sup>.

#### Duties of TMSC Chair:

- Prepare meeting agendas
- Meeting day and times
- Logistics needed for the operation of the TMSC
- Facilitate each TMSC coalition meeting

Nominations are due by April 8. You can visit the [looklearnlive.org](http://looklearnlive.org) website and nominate someone through the "contact us" or send an email to Cathy Brooks at [c-brooks@tti.tamu.edu](mailto:c-brooks@tti.tamu.edu) with your nomination and why you or they would be good for the job. Vote will be held at the August 11<sup>th</sup> TMSC meeting.

## Task Force Chair Nominations

Cathy presented the nomination process for Task Force Chair. We'd like that body to be more active. Nominations due by April 1<sup>st</sup> and will be announced at the April 9<sup>th</sup> Motorcycle Safety Forum.

### Duties of Task Force Chair

- Schedule and preside at meetings of the TF.
- Interface with the Co-Facilitators and the TMSC Chair to provide guidance to the TMSC Members and TF Members.
- Attend and "report out" to the TMSC Members at Coalition meetings.

## Motorcycle Safety Award Nominations are Open

The Texas Motorcycle Safety Award nominations are open today. Please submit your nominations via this online form [here](#).

- Nominations Open TODAY
- Survey closes February 28th
- Review & Selection in March
- Presentation April 9th at the Motorcycle Safety Forum

## Reducing Impaired Riding by Engaging Stakeholders (Laura)

Laura discussed the Impaired Riding Survey that is in process. We're looking for stakeholders to participate. What are some of our stakeholders already doing to raise awareness about impaired riding and possibly be providing to help prevent impaired riding. We're in the information gathering process now. We're trying to figure out what is already being done and what might be considered (like a Toolkit list) to prevent impaired riding in Texas.

Please contact Laura if you have any questions or comments at [l-higgins@tti.tamu.edu](mailto:l-higgins@tti.tamu.edu).

Reducing Impaired Riding by Involving Motorcycle Stakeholders - participate in the survey, link [here](#).

## Sherry Matthews looking for crash stories (Mark Evans)

Cathy introduced Mark Evans with Sherry Matthews Group and he works on the Look Twice for Motorcycles campaign. "We're starting work for events we'll be working on in May. We're looking for riders who have been in a crash or who have lost someone in a crash to help tell stories for May, Motorcycle Safety Awareness Month." Please contact Mark at [marke@sherrymatthews.com](mailto:marke@sherrymatthews.com) and share your story.

Mike shared that this is a really great way to share experiences of riding and the Look Twice campaign is one of the most visible campaigns. This is great way to support that campaign and a wonderful opportunity to get involved on educating riders and motorists.

## Adjourn

1/20/2022 9:22 AM Meeting started

[1/20/2022 9:57 AM] Brandy "CHiPs" Fuller (Guest)

Hello, this is CHiPs. I don't think my mic is working on this and I don't have a webcam. Good morning.

[1/20/2022 9:57 AM] Higgins, Laura

Good morning, CHiPs!

[1/20/2022 9:58 AM] Brooks, Cathy

CHiPs, you can hear okay?

[1/20/2022 9:59 AM] Brandy "CHiPs" Fuller (Guest)

Yes I can hear

[1/20/2022 10:01 AM] Brandy "CHiPs" Fuller (Guest)

[1/20/2022 10:03 AM] Michael Strawn

good morning everyone

[1/20/2022 10:03 AM] Higgins, Laura

Good morning!

[1/20/2022 10:05 AM] Spitfire's computer (Guest)

Vicki Sanfelipo AKA Spitfire - 5 degrees in Milwaukee! Hi CHiPs!

[1/20/2022 10:06 AM] Raine Devries (Guest)

Hello from Dallas!

[1/20/2022 10:06 AM] Spitfire's computer (Guest)  
Raine!

[1/20/2022 10:06 AM] Raine Devries (Guest)  
Big hugs!

[1/20/2022 10:06 AM] Brandy "CHiPs" Fuller (Guest)  
Hello Vicki, nice to see you

[1/20/2022 10:06 AM] Raine Devries (Guest)  
We are a balmy 25 here so I think you've got the cold record for today.

[1/20/2022 10:07 AM] Spitfire's computer (Guest)  
Looking forward to learning from all ya all

[1/20/2022 10:08 AM] Gabe Cavazos  
CRIS is such a fantastic tool!

[1/20/2022 10:08 AM] Charles Herd  
Will this PowerPoint be available to review later?

[1/20/2022 10:08 AM] Higgins, Laura  
Hi, Charles! Yes, we'll make the powerpoint available on LookLearnLive.org!

[1/20/2022 10:09 AM] Manser, Michael  
CRIS is Crash Records Information System and it aggregates and hold all reportable crash data in Texas. So, if officer fills out a crash report, it is stored in CRIS

[1/20/2022 10:09 AM] Manser, Michael  
Yes, we will have the presentation posted on looklearnlive.org

[1/20/2022 10:10 AM] Gabe Cavazos  
I've used CRIS data for years now, the DoT makes it very easy to grab all this data.

[1/20/2022 10:11 AM] Manser, Michael  
I agree Gabe, CRIS is very helpful.

[1/20/2022 10:12 AM] Gabe Cavazos  
I built this to solve this problem

[1/20/2022 10:12 AM] Michael Strawn  
do we know the number/percentage of SVCs that were unlicensed?

[1/20/2022 10:13 AM] Manser, Michael  
I think Cathy may have unlicensed riders. Normally it is about 50% of all fatalities.

[1/20/2022 10:14 AM] Michael Strawn  
thanks! i knew that for general terms but did not know if it was maybe higher for the SVC

[1/20/2022 10:14 AM] Brooks, Cathy  
I do not have unlicensed on hand.

[1/20/2022 10:14 AM] Manser, Michael  
we can look at SVCs and get that to you.

[1/20/2022 10:15 AM] James Hansen (Guest)  
i was wondering the same thing ... % of unlicensed for SVC.

[1/20/2022 10:15 AM] Dr. David Jones DD (Guest)  
Will there be access to this PowerPoint presentation to download?

[1/20/2022 10:15 AM] Ben W. Smith  
thanks for sharing the CRIS data. always interesting

[1/20/2022 10:15 AM] Maurice (Guest)  
Yes it will be on LookLearnLive

[1/20/2022 10:15 AM] Manser, Michael  
Yes, we will have the PPT posted on Looklearnlive.org in just a day or two.

## Hazards

The TxDOT provides information about the driving conditions for each accident. Accidents at night are the most dangerous even though most accidents occur during the day. Intersections do not present a serious risk because the mortality rate of 3% is lower than at accidents at non intersections (4%).

	Accidents	Deaths	Mortality Rate
NON INTERSECTION	41,740	1,711	4%
INTERSECTION	215,299	641	3%
DRIVEWAY ACCESS	13,105	252	2%
INTERSECTION RELATED	13,923	217	2%
No Data	5	0	0%

Michael: How best to get this data out to the public" and to riders themselves?

[1/20/2022 10:20 AM] Gabe Cavazos  
Here's some data I've pulled for the last few years

[1/20/2022 10:20 AM] David Canada (Guest)

I would like a copy of the slides so I can share some of the data with the riders on my tour [www.MCGTTX.com](http://www.MCGTTX.com) via the tour newsletter.

[1/20/2022 10:20 AM] Lauren Secular  
Will a recording of this be available?

[1/20/2022 10:21 AM] Manser, Michael  
Hi Charles, we try to get this out to riders via our looklearnlive social media channels and we attend rider events

[1/20/2022 10:21 AM] Charles Herd

I represent Accident Scene Management and promoting Motorcycle Specific First Response training as a part of the solution. We are a 501(c)3 non-profit and have instructors in Texas. I recently wrote a "Road to Zero" grant train and study training in Texas to help bring numbers down through Post Crash pre-hospital care. We hope to hear whether or not our grant request has been approved in the next month or two.

I work for State Senator Dawn Buckingham and could help advocate for Lane Filtering. The downside is there will not be a new legislative session until Jan 2023 and my boss is running for Texas Land Commissioner. So, I will be out of a job, working for the new Senator, or working for the General Land Office. But, I can help with advocacy due to my contacts in state government.

Not sure as privacy laws may restrict.

Rotary International will have its international convention in Houston this summer. The president this year is from Houston, and is a MC rider. They may be setting up a ride.

Would be good to link up on that ride. I will try to make contact with the pres.

i think dealers in some cases are being counter-productive when it comes to discouraging drinking and riding. i sent an email yesterday showing an example.
