

2025 TEXAS MOTORCYCLE SAFETY FORUM

Nancy R. Winn, LCDC, CPS

Statewide Program Manager & Public Participation and Engagement Coordinator,
Texas Department of Transportation

Nancy Winn is a passionate advocate for public safety and community engagement, bringing a wealth of experience in prevention, treatment, and capacity building to her role at the Texas Department of Transportation (TxDOT). With a background in Human Services, and as both a Licensed Chemical Dependency Counselor (LCDC) and Certified Prevention Specialist (CPS), Nancy's career has been defined by her commitment to supporting healthier, safer communities.

After a decade as a business administrator in the private sector, Nancy made a purposeful transition to the nonprofit & state institution sectors in Houston the Bryan, where combined has dedicated 17 years to state and federally funded prevention, intervention, and treatment programs. This work deepened her appreciation for the power of public participation and the positive changes it can bring to individuals and neighborhoods.

Today, Nancy manages two statewide safety campaigns for TxDOT: the "Look Twice for Motorcycles" Motorcycle Safety Awareness campaign and the "Talk. Text. Crash." campaign targeting distracted driving. She also leads public participation and engagement initiatives that support TxDOT's mission to connect you with Texas, deliver mobility, enable economic opportunity, and enhance the quality of life for all Texans-ensuring that community voices are heard and reflected in transportation safety efforts.

Beyond her role at TxDOT, Nancy is actively involved in local recovery and safety initiatives, serving as chair of the Brazos Valley Recovery Oriented Systems of Care (BV-ROSC) and participating in S.A.F.E. (Safe Alternative For Everyone) Brazos Valley. In her downtime, she enjoys traveling with her family and joining her husband on motorcycle rides to support local motorcycle clubs. Nancy's dedication to public engagement and roadway safety is matched by her belief in the importance of building trust and collaboration between TxDOT and Texas communities. She is honored to work alongside all of you to make Texas roads safer for every motorcyclist and roadway user.
